A cleanup plan is a good idea but we have to make sure we can afford it.

It's important to remember that the river is also a key driver in Portland economic engine. We all love the Willamette and its role in our environment. But I hope that you'll also factor in the important jobs the harbor provides.

I would guess that you'll get a ton of comments. I just hope that you remember that the river here is important for our recreation but that it also supports our jobs and helps put food on our tables.

Sincerely,
